## About the School

Erle Rivers High School consists of 150 enthusiastic and energetic students, an Education TEAM of 20 staff members, a tireless Athletic Coordinator, and an active School Council and Booster Club. We take pride in our Middle School, which consists of grades six to eight, and our High School, which consists of grades nine through twelve. As a team, we are committed to providing our students with a positive and safe learning environment. We are very proud of our students' accomplishments – academically and athletically. In our school community, students are active members who not only participate in our athletic activities, but also support programs such as: Students' Council, Peer Support Groups, and a variety of clubs, including Outdoor Ed. We feel fortunate to have a small, rural, high school like Erle Rivers High School that provides a diverse education that fulfills the needs of all of our students.
