

**DELTA INTERNATIONAL STUDENT PROGRAM
VACCINATION/IMMUNIZATION ACKNOWLEDGEMENT**

In B.C., immunizations for school-aged children are routinely given in grade 6 and grade 9 (and other grades if children are behind in immunization or at risk for certain vaccine-preventable diseases). Vaccines are given by nurses at immunization clinics held at schools.

- **Grade 6:** Human Papillomavirus (HPV) Vaccines (if behind can get hepatitis B and chicken pox vaccines)
- **Grade 9:** Meningococcal Quadrivalent Vaccines
- **Grade 9:** Tetanus, Diphtheria, Pertussis (Tdap) Vaccine
- **Grades 6-12:** Human Papillomavirus (HPV) Vaccine for those who need it

Note:

- Common practice is for parents or guardians of children 12 years of age and younger to give consent for their child to be immunized. Forms are typically distributed through the schools.
- Students aged 12 and over can consent to their own vaccination without parental agreement in the province of British Columbia.

Acknowledgement and Consent:

Signing this document does not mean we are consenting for our child to get vaccinations. ***It is an acknowledgement we understand*** the vaccination practices in Delta schools and have had a discussion with our child regarding our family's views and wishes on receiving vaccinations if offered in Canada. For children over the age of 12, it is their responsibility and decision whether to comply with their parents' wishes.
